

# **EPR Compliance Assessment Report**

Report ID: WP3939RF/0378349

This form will report compliance with your permit as determined by an Environment Agency officer							
Site	West Newton B Wellsite - EPR/WP3939RF			Permit Ref	DB3503HL		
Operator/ Permit holder	Rathlin Energy (UK) Limited						
Date	12/11/2020	Time in	10:24	Out	16:00		
What parts of the permit were assessed	Management system procedures and records						
Assessment	Remote Audit	EPR Activity:	Installation X	Waste Op W		Water Discharge	
Recipient's name/position	redacted						·
Officer's name	redacted			Date issued	20/	11/202	0

# Section 1 - Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations (EPR). A detailed explanation and any action you may need to take are given in the "Detailed Assessment of Compliance" (section 3). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our <a href="Compliance Classification Scheme">Compliance Classification Scheme</a> (CCS). CCS scores can be consolidated or suspended, where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit Conditions and Compliance Summary Con				Condition(s) breached
a) Permitted activities	1. Specified by permit	Α		
b) Infrastructure	1. Engineering for prevention & control of pollution	Α	1	
	2. Closure & decommissioning	N	1	
	3. Site drainage engineering (clean & foul)	N	1 [	
	4. Containment of stored materials	N	1 [	
	5. Plant and equipment	N	1	
c) General management	1. Staff competency/ training	N	ìſ	
	2. Management system & operating procedures	Α	1 1	
	3. Materials acceptance	N	1 [	
	4. Storage handling, labelling, segregation	N	1 1	
d) Incident management	1. Site security	N	ĺ	
	2. Accident, emergency & incident planning	N	1	
e) Emissions	1. Air	N	ĺľ	
	2. Land & Groundwater	Α	ĺľ	
	3. Surface water	N	1	
	4. Sewer	N	ĺľ	
	5. Waste	Α	1	
f) Amenity	1. Odour	N	Ì	
	2. Noise	N	ii	
	3. Dust/fibres/particulates & litter	N	ĺľ	
	4. Pests, birds & scavengers	N	ii	
	5. Deposits on road	N	1 1	
g) Monitoring and records,	1. Monitoring of emissions & environment	N	1	
maintenance and reporting	2. Records of activity, site diary, journal & events	Α	ĺľ	
	3. Maintenance records	N	וו	
	4. Reporting & notification	N	<b>i</b> i	
h) Resource efficiency	1. Efficient use of raw materials	N	<b>1</b>	
	2. Energy	N	[	

KEY: C1, C2, C3, C4 = CCS breach category ( \* suspended scores are marked with an asterisk),

A = Assessed (no evidence of non-compliance), N = Not assessed, NA = Not Applicable, O = Ongoing non-compliance – not scored MSA, MSB, TCM = Management System condition A, Management System Condition B and Technically Competent Manager condition which are environmental permit conditions from Part 3 of schedule9 EPR (see notes in Section 5/6).

Number of breaches recorded		Total compliance score (see section 5 for scoring scheme)		
If the Total No Breaches is greater than zero, then please see Section 3 for details of our proposed enforcement response				

CAR 2 V2.0 Page 1 of 5

### Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- the part(s) of the permit that were assessed (e.g. maintenance, training, combustion plant, etc)
- where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- any non-compliances identified
- > any non-compliances with directly applicable legislation
- details of any multiple non-compliances

- information on the compliance score accrued inc. details of suspended or consolidated scores.
- details of advice given
- > any other areas of concern
- all actions requested
- > any examples of good practice.
- > a reference to photos taken

This report should be clear, comprehensive, unambiguous and normally completed within 14 days of an assessment.

Present: redacted

The objective of the audit was to check compliance with management system procedures relating to sampling, testing, characterisation, and removal of wastes produced on site, to inspect records relating to waste duty of care, and to inspect records relating to the drilling operation for assessment against the requirements of the WNB-1 well WR11 notification.

Documents were inspected in electronic form at the Rathlin Energy (UK) Ltd Beverley office, and also remotely via a Dropbox.

# Audit of management system procedures and records

Records in relation to waste drilling muds and cuttings, wood, excess cement, containment ditch water, hydraulic oil, and scrap metal removed from site were inspected. Waste duty of care paperwork, and the required completed waste sampling records (document reference RE-05-FO-062) and waste classification records (document reference RE-05-FO-061) were present. The wastes had been assigned appropriate EWC (European Waste Classification) codes and the destination waste management sites were confirmed as authorised to accept the wastes.

The MiSwaco mud engineer's daily mud report no. 38 for WNB-1 from date 06/11/2020 was inspected. The report records daily and cumulative mud additions. All mud additions recorded were additives approved under the Environmental Permit.

The drilling mud spreadsheet 'Mud tracking Salt Sat v1' was inspected. The spreadsheet is used to record drilling mud additive additions and mud removals so the potential build-up of properties within the mud that could exceed hazardous waste criteria can be identified. All potential properties were found to be either not present or well below hazardous waste thresholds.

CAR 2 V2.0 Page 2 of 5

# Inspection of records relating to drilling operations

Daily operations reports for drilling operations were inspected and assessed against the requirements of the WR11 notification for the WNB-1 well. The aspects inspected were compliant.

Section 3- Enforcement Response	Only one of the boxes below should be ticked		
You must take immediate action to rectify any non-compliance and prevent repetition.  Non-compliance with your permit conditions constitutes an offence* and can result in criminal prosecutions and/or suspension of revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.			
*Non-compliance with MSA, MSB & TCM do not constitute an offence but can result in the ser	vice of a compliance, suspension and/or revocation notice.		
Other than the provision of advice and guidance, at present we do not inte respect of the non-compliance identified above. This does not preclude us relevant information comes to light or advice isn't followed.			
In respect of the above non-compliance you have been issued with a warni further enforcement action. This does not preclude us from taking addition information comes to light or offences continue.	• .		
We will now consider what enforcement action is appropriate and notify yo	ou, referencing this form.		

Section 4- Action(s)						
	Where non-compliance has been detected and an enforcement response has been selected above, this section summarises the					
steps you	need to tak	ke to return to compliance and also provides timescales for this to be done.				
Criteria Ref.	CCS Category	Action Required / Advised	Due Date			
See Section	on 1 above					

CAR 2 V2.0 Page 4 of 5

#### Section 5 - Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- advise on corrective actions verbally or in writing
- require you to take specific actions in writing
- issue a notice
- require you to review your procedures or management system
- change some of the conditions of your permit
- decide to undertake a full review of your permit

Any breach of a permit condition is an offence\* and we may take legal action against you.

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and or suspension or revocation of the permit.
- A civil sanction Enforcement Undertaking (EU) offer may also be available to you as an alternative enforcement response for this/these offence(s).

# See our Enforcement and Civil Sanctions guidance for further information

\*A breach of permit condition **MSA**, **MSB** & **TCM** is not an offence but may result in the service of a notice requiring compliance and/or suspension or revocation of the permit.

This report does not relieve the site operator of the responsibility to

- ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- ensure you comply with other legislative provisions which may apply.

# Non-compliance scores and categories

CCS category	Description	Score
C1	A non-compliance which could have a <b>major</b> environmental effect	60
C2	A non-compliance which could have a significant environmental effect	31
С3	A non-compliance which could have a <b>minor</b> environmental effect	4
C4	A non-compliance which has <b>no</b> potential environmental effect	0.1

Operational Risk Appraisal (Opra) - Compliance assessment findings may affect your Opra score and/or your charges. This score influences the resource we use to assess permit compliance.

#### MSA, MSB & TCM are conditions inserted into certain permits by Schedule 9 Part 3 EPR

**MSA** requires operators to manage and operate in accordance with a written management system that identifies and minimises risks of pollution.

**MSB** requires that the management system must be reviewed, kept up-to-date and a written record kept of this.

TCM requires the submission of technical competence information.

#### Section 6 - General Information

#### Data protection notice

The information on this form will be processed by the Environment Agency to fulfill its regulatory and monitoring functions and to maintain the relevant public register(s). The Environment Agency may also use and/or disclose it in connection with:

- offering/providing you with its literature/services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law and taking any resulting action
- preventing breaches of environmental law
- assessing customer service satisfaction and improving its service
- Freedom of Information Act/Environmental Information Regulations request.

The Environment Agency may pass it on to its agents/representatives to do these things on its behalf. You should ensure that any persons named on this form are informed of the contents of this data protection notice.

#### Disclosure of information

The Environment Agency will provide a copy of this report to the public register(s). However, if you consider that any information contained in this report should not be released to the public register(s) on the grounds of commercial confidentiality, you must write to your local area office within 28 days of receipt of this form indicating which information it concerns and why it should not be released, giving your reasons in full.

#### **Customer charter**

#### What can I do if I disagree with this compliance assessment report?

You must notify your local officer within 28 days of receipt if, you wish to challenge any part of this compliance assessment report. If you are unable to resolve the issue with your site officer, you should firstly discuss the matter with the officer's line managers. If you wish to raise your dispute further through our official complaints and Commendations procedure, phone our general enquiry number 03708 506 506 (Mon to Fri 08.00–18.00) and ask for the customer contact team or send an email to enquiries@environment-agency.gov.uk. If you are still dissatisfied, you can make a complaint to the Ombudsman. For advice on how to complain to the Parliamentary and Health Service Ombudsman phone their helpline on 0345 015 4033.
